Afterword

Writer Kasama here. Thank you for buying *Deadpool Samurai* volume 2. The Deadpool movie hooked me on him immediately. I worked on my manga while dreaming about depicting a character that absurd, but never in my wildest dreams did I think I'd get the opportunity to draw Deadpool himself.

Thank you so much to those who supported me, to the manga creators who graciously gave their approval for the references, and to everyone involved in the making of this manga.

Also, I'm pretty sure this manga's MVP was our editor, who handled the back-and-forth with Marvel, got permission for an enormous number of references, and more, so please give the editor some appreciation.

Artist Uesugi here. Thank you for not only buying this book but also reading it all the way to this page. I feel my art is crude compared to the American comic books, but I hope you were able to enjoy it anyway. Deadpool's design is my personal favorite of the Marvel characters, so I had a lot of fun drawing him. There's something moving about seeing the differences in the art between the one-shot, the first chapter, and now.

I was struck by how well the character combines both action and comedy. On top of that, I have to admire a design so strong that a character can be that expressive while *masked*.

Finally, getting to have my art next to Horikoshi Sensei's, getting to see Superlog's art from the closest distance possible... This was a once-in-a-lifetime experience.

Thanks, DP!
